Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Trademark Mail

Mail or packages destined for Trademark organizations may be sent through the United States Postal Service, a courier service, or hand carried to the office.

With the recent move of the PTO's trademark operations to the South Tower building, it has come to our attention that documents are being delayed as a result of trademark users mailing documents to the street address of the South Tower building. Mail which is addressed in this manner will not be delivered by the Postal Service. Instead, the mail is forwarded to the Post Office in Washington, DC and then delivered to the PTO Mail Room, which is Crystal Plaza 2.

All mail related to Trademarks should be sent to the following address:

Commissioner of Patent and Trademarks
Washington, DC 20231

The PTO has established special boxes for expedited processing and distribution of specific types of documents. The following special boxes have been established for Trademark-related documents:

Box TRADEMARK - APPLICATION	-	New trademark application and associated papers and fees
Box 9	-	Coupon order for copies of U.S. patents and trademarks
Box 10	-	Orders for certified copies of patent and trademark applications.
Box ITU	-	All intent to use documents, excluding the initial application and amendments to alleged use

Documents being sent to one of these special boxes should be addressed as follows:

Box_____
Commissioner of Patents and Trademarks
Washington, DC 20231

Please bear in mind these boxes are designated to handle a particular type of document(s), and procedures are in effect to ensure proper handling of that type document. Therefore, you should not include documents other than those designated for the particular box in the envelope since those documents may be delayed in processing.

Packages or envelopes sent by courier or delivery service should be delivered to the PTO Mail Room at the following address:

Crystal Plaza 2 Building, Room 1A01
2011 Jefferson Davis Highway
Arlington, Va. 22202

To ensure documents receive appropriate and timely processing, do not have mail sent or packages delivered to the South Tower Building.

Patent Information in CD-ROM and Diskette Format

The Patent and Trademark Office is currently making available to the public four CD-ROM patent information products: CASSIS/BIB, CASSIS/CLASS, CASSIS/ASSIGN, and ASIST.

These patent search tools were originally developed by the Patent and Trademark Office for use in the network of Patent and Trademark Depository Libraries, and replaced the Classification and Search Support Information System (CASSIS) on-line system used at these libraries. They are now available to anyone on a subscription basis.

CASSIS/BIB features bibliographic information for utility patents issued from 1969 to the present, and for other types of patent documents issued from 1977 to the present. That information includes year of issue, state/country of first listed inventor's residence, assignee at time of issue, status (i.e., withdrawn or expired for failure to pay maintenance fees), current classification, patent title, and patent abstracts (through the most recent three-year period, as disc space allows).

CASSIS/CLASS contains current classification information for all utility, design, plant, reissue and X-numbered patents as well as Defensive Publications and Statutory Invention Registrations issued from 1790 to present (over 5 million documents). Indexing of classification information has been optimized for rapid retrieval.

CASSIS/ASIGN includes assignments recorded at the Patent and Trademark Office after Dec. 1980 to the present. The entire assignment record for patents may be searched, including assignments recorded before and after a patent issued.

ASIST is a compilation of many patent and classification search tools, previously available only in paper or microfiche format, and includes:

Manual of Classification
Index to the U.S. Patent Classification
Manual of Patent Examining Procedure
IPC-USPC Concordance
Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office

In addition, Classification Definitions, a Patentee-Assignee file, and a Classification Orders Index are included. The Patentee-Assignee file shows assignments at time of issue for utility patents 1969 to present; for other patent types, 1977 to present; and for inventors, 1975 to present. The Classification Orders Index is a list of subclass numbers abolished and established since 1976 with corresponding Classification Order number and effective date.

In addition to the word-searching capabilities inherent in CD-ROM, subscribers receive information updated more frequently than in paper or fiche format.

CD-ROM products in the CASSIS series are updated and mailed approximately six times per year. ASIST is updated and forwarded approximately four times per year.

CASSIS/BIB, CASSIS/CLASS, AND CASSIS/ASIGN are currently offered at a subscription price of $210/year to the U.S., Mexico and Canada, or $252/year to all other addresses. The current subscription price for ASIST is $161/year to the U.S., Mexico and Canada or $193/year to all other addresses.

Included with a subscription are manuals for installation and use of the retrieval software, which are the only user support available from the Patent and Trademark Office.

In addition to the accessibility of the *Manual of Patent Examining Procedure* on CD-ROM, the *Manuals* is now also available on diskette, allowing users to print, view or search the *Manual* on an AT class IBM compatible PC (or better) with 512K RAM, hard drive and floppy disk drive. **MPEP on Disk** may be ordered on 5.25" or 3.5" diskettes for $50 (U.S. Canada and Mexico), or $60 (all other addresses). *FolioViews* search software allows the user to navigate through the text by use of hyperlinks, Boolean and proximity searches.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
